Growers of
Fruit Trees & Plants
Roses, Evergreens
And Hardy Ornamentals

Loveland, Colo.

It is with appreciation that we acknowledge the many favors from our customers in the past. We are gratified that our constant efforts to offer only the finest quality stock, and a policy of sincere, fair dealing, have brought many additional orders from customers, both old and new. We continue to solicit your orders because we feel that our merchandise has the full merits to justify your confidence.

Terms

Prices are cash with order; C.O.D. orders must be accompanied by at least one-fourth cash.

We prepay those items so indicated in catalog; others travel at purchaser's expense. Express shipments are best on the larger items; these rates have been reduced about 20 percent.

Rates unless otherwise noted, are quantities from 1 to 5 at price each; 5 to 25 at rate per 10; 25 to 250 at 100 rates. Where each rate only is given, a dozen can be furnished at ten times rate each with six at dozen rate.

Shipping season for spring, March 15 to May 10; early April planting is best.

Note: Prices and stock here quoted can be furnished subject to supply at printed price.

Residents of Colorado please include 2% sales tax.

Our Location

One mile north of Loveland on Highway No. 285.

Visitors Welcome

We shall be glad to help you with your orchard or landscaping problems. Do not hesitate to write or see us.

Colorado Grown Nursery Stock

The degree of successful growth of nursery stock purchased can definitely be measured by the quality of the nursery stock planted. It has long been proved that the best stock is grown under conditions similar to those under which it finally is expected to grow.

The area comprising the plateau region adjacent to the Rocky Mountains is in a climatic belt that is different, especially in regard to woody and perennial plant growth.

Colorado Grown stock is so tempered by our dry atmosphere, cool nights, bright sunshine, soil conditions and sudden temperature changes, that when correctly grown, is the finest nursery stock money can buy. A tree or plant gives off an unbelievable amount of moisture, and the dryer the air, the greater is the evaporation. The root system must furnish this extra moisture to nourish the plant. That is why our nursery stock must have well developed fibrous roots that will readily continue growth when transplanted. Top growth is more gradual, building closely knit bark and wood cells that do not especially demand mild, damp weather to generate growth or to preserve it during winter.

Protect your investment by buying the right varieties that are grown to fit the climate.

We wish to call your attention to our fruit tree department which produces the largest number of Colorado Grown fruit trees in the state. These trees have been referred to as "the height of perfection". Perhaps that is why our many satisfied customers have assisted us in becoming fruit tree headquarters of Colorado.

Clean Nursery Stock

All stock which we sell is certified by proper authorities as being free from insect pests and disease.

Order Early

We can give your order our maximum attention and care when received early while our stocks are still complete. There still exists a nation-wide shortage of fruit stock.

Fruit Trees and Plants

APPLES

Summer Varieties

RED JUNE. August. Medium size, deep red, good flavor; productive.

YELLOW TRANSPARENT. Ripens in August, a splendid early cooking and eating apple; medium to large, pale yellow fruit. Hardy, bears young.

WHITNEY CRAB. August. Hardy, good bearer; fruit small to medium, striped red and green, fine for eating and canning.

Fall Varieties

ANOKA. New. Prof. N. E. Hansen, plant genius of Minnesota and originator of this variety says, "The Anoka is without a doubt the earliest and heaviest bearing apple grown today." This remarkable variety bears on one year wood, and often bears the second year after planting. Fruit is large, good flavor; color red striped over yellow. Add 10c per tree. (In 3 to 5 ft. size only).

WEALTHY. September. Fine reliable bearer of large red-striped tender, juicy, slightly sub-acid fruit.

Winter Varieties

BLACK BEN. Solid deep red, late keeping variety; one of the most dependable commercial varieties; unexcelled for pies.

CORTLAND. New. Beautiful red apple of McIntosh parentage, excellent quality, good keeper; dessert or cooking.

DARK RED DELICIOUS. Often referred to as Double Red. A much improved Delicious, turning completely red before it is ripe. Otherwise it has the same fine flavor of Common Delicious. Add 10c per tree.

YELLOW DELICIOUS. This beautiful yellow apple is a bright golden yellow, sweetly acid flavor, and commands high market prices. This variety is a good bearer, beginning at early age. Add 10c per tree. (In 3 to 5 ft. size only).

GOLDEN WINESAP. Recent variety; large yellow apples tinged crimson; good keeper.

JONATHAN. Medium size of finest quality; bright red, fine flavor; moderate grower.

McINTOSH. A leading variety. Large solid red, tender, juicy, aromatic. Tree hardy, good bearer. Canadian origin.

NORTHWESTERN GREENING. A good winter cooking apple; large, greenish yellow, firm. Productive bearer.

NORTHERN SPY. Always in demand, fine for fancy trade, being one of the leading commercial apples in some sections; trees vigorous. Fruit large, attractive, bright red over light green.

STAYMAN WINESAP. Next to Turley, the best Winesap. Fruit rich dark red, striped yellow and green. Flesh firm and fine grained; juicy and tasty. (In 3 to 5 ft. size only).

SHERIFF. A variety of particular merit for this section. The tree is one of the hardiest and thriftiest, very shapely; bears young; consistent cropper. Apples good size and quality, nearly all over red with orange shading. Supply limited.

TURLEY. New Winesap. Produces large, very red fruit of excellent flavor and quality. Colors on tree much earlier than other Winesaps. Ripens just before Stayman. (In 3 to 5 ft size only).

Crab Apples

DOLGA. Has very brilliant red fruit of small size, borne freely. Sprightly flavor; makes rich colored jelly. Fall. Blossoms, fruit, and shape make it desirable as ornamental trees. (In 3 to 5 ft. size only).

FLORENCE. Very hardy. A medium size tree bearing abundant crops of small yellow and bright red apples for jellies and preserving. Fall.

RED SIBERIAN. Vary hardy. Very thrifty grower producing enormous yields of small, firm, yellow and red apples prized for jelly. Fall.

WHITNEY. See summer apples.

Prices apply to varieties described above, except where noted; varieties alike or assorted, your choice

	ea.	10	100
Heavy 4 to 6 ft.	.75	6.50	60.00
Medium 3 to 5 ft.	.60	5.00	45.00
3 to 4 ft. whips	.45	4.00	35.00

One of Our Bearing Cherry Orchards

In propagating fruit trees, we select from bearing trees only for assurance of better producing strains and true-to-name varieties.

We maintain in connection with our nursery, a thirty-five acre tract as a "laboratory" and testing grounds for commercial orchard practices. Here we maintain plantings of standard varieties of fruits, as well as the new introductions for testing. Parent trees and plants of known quality are maintained for propagation which assures your orders from us as being the soundest and most profitable investment you can make.

Windbreaks planted along exposed portions of an orchard are of great value—especially in sections where wind is frequent or severe. Also valuable for sheltering livestock, buildings, gardens, fields, etc. See page 14.

CHERRIES

Caliper means diameter in inches at the base of the tree trunk. In our practice of producing stocky, well-branched trees so necessary for successful development in our western climate, the height to which we grow them is of secondary importance.

EARLY RICHMOND. Ripens about July 1; fruit medium sized, red.

ENGLISH MORELLO. Ripens late July. Fruit large, nearly black, very attractive. Starts bearing heavily at early age.

MONTMORENCY. The best all around sour cherry grown. Ripens mid-July; fruit large bright red. Leading commercial variety.

OSTHIEM. Nearly black, tender, juicy and almost sweet; medium to large size. Should be planted instead of Morello where a more hardy black variety is desired.

10,000 Colorado grown trees while they last.

Varieties alike or assorted

Caliper in.	Approx. height	ea.	10	100
9-16 to 11-16	3½ ft. and up	.60	5.00	45.00
7-16 to 9-16	3 ft. and up	.50	4.00	35.00
5-16 to 7-16	2 ft. and up	.40	3.50	30.00

A Choice of Standard Sizes

Since we grow "home grown" fruit trees here in Northern Colorado in large numbers, we are able to offer a selection of sizes in nearly all classes of fruit trees. These sizes are the result of faithful grading and are not governed by height alone, but represent the diameter of the tree as well. Culls are not offered for sale by us. All trees that we offer are first class stock that will make a thrifty growth, the larger sizes producing enough more fruit in the early years of bearing to pay for the difference in cost.

Write for prices on 1,000 lots of fruits.

Special Home Orchard Values

Save without risk

COLLECTION "A"; Apples—2 Yellow Transparent, 2 Wealthy, 2 McIntosh, 2 Delicious, 2 Jonathan, 2 Northwest Greening. One dozen 3 to 5 ft. trees, 7/16-9/16 in. caliper, for \$5.35.

COLLECTION "B"; Cherries—3 Montmorency, 3 Early Richmond, 3 English Morello, 3 Osthieme. One dozen trees, 7/16-9/16 in. caliper, 2½ ft. and up, for \$4.15.

COLLECTION "C"; Combination Orchard—2 Delicious Apple, 2 Wealthy Apple, 2 Montmorency Cherry, 2 English Morello Cherry, 2 German Prune Plum, 2 Waneta Plum. All 7/16-9/16 in. caliper standard trees, for \$5.50.

PLUMS

GERMAN PRUNE. Medium large, oval, blue. Rich and sweet; popular.

MONITOR. Large, firm, fine quality red fruit. Thrifty grower.

GREEN GAGE. The sweetest eating and canning plum. Ripens in August, medium to large, greenish yellow color.

ITALIAN PRUNE. A valuable plum for dessert, canning, or drying; freestone. Oval shape; purple with thick blue bloom.

MOORES ARCTIC. Purplish black skin, with pale blue bloom; flesh greenish yellow, juicy, sweet and pleasant flavor. Medium in size; ripens in late August. One of the hardiest of the European types.

SUNSET. This variety has stood the test of time and climate the best of any variety we know of. Medium small in size, of a glowing light red color, and is of sweet delicious flavor. Ripens in August.

TERRY. Medium to large, bright red, fine flavor; dependable.

UNDERWOOD. Ripens August. Fruit attractive, large red, firm, juicy, freestone. Strong grower.

WANETA. August. Fruit very large, deep bright red thin skin, delicious flavor. One of the very best.

YELLOW EGG. Fruit large rich yellow; possesses a mild distinctive sweet flavor.

COMPASS CHERRY-PLUM. Small, wine red, distinct flavor. Very hardy and early bearer.

Varieties alike or assorted.

	ea.	10
Heavy 4 to 6 ft.	.85	7.50
Medium 3 to 5 ft.	.75	6.50

Russian Mulberry

A tree of fairly rapid growth and somewhat drouth resistant, bearing black edible fruit. Fruits attract birds, keeping them from more valuable orchard fruits. 3 to 4 ft. size, 35c each; \$2.50 per 10; \$20.00 per 100.

Other Fruit Trees

PEACHES, APRICOTS, SWEET CHERRIES, PEARS, are generally not successful northerly on the eastern slope of the Rockies, and we cannot guarantee future results of trees. However, we can furnish above in good trees where desired.

Apricots

CHINESE. A large freestone; rich yellow with red cheek. This variety was started in the West and is considered harder than most varieties.

SUPERB. This is also one of the harder varieties. Fruit is of medium size and very fine quality.

Apricot prices: 7/16-9/16 in. caliper, 3 to 4 ft., each 65c; per 10 \$5.50.

Peaches

CHAMPION. Large creamy white with red cheek. Freestone. Flesh white, juicy, sweet, very high quality. One of the hardier varieties. Late August.

ELBERTA. The greatest commercial peach on the market today. Fruit large, yellow with red cheek, juicy and highly flavored. September.

J. H. HALE. Very large, golden yellow blushed red, freestone. Flesh is yellow, solid, tender, of highest quality and delicious flavor.

ROCHESTER. Large, yellow blushed red. Yellow flesh, fine flavor, freestone; ripens about two weeks before Elberta. One of the hardier varieties.

Peach prices: 7/16-9/16 in. caliper, 3 to 4 ft., each 55c; per 10 \$4.50; per 100 \$40.00.

Pears

BARTLETT. The leading late summer pear. Large, yellow with blush. Juicy, sweet, high quality.

MENDEL. New. Originated by the Fruit Breeding Farm in Minnesota, this is one of the hardiest pears we have. Fruit is yellow, ripening in early September.

Pear prices: 7/16-9/16 in. caliper, 3 to 5 ft., each 75c; per 10 \$6.50.

Small Fruits

For home use and market.

Grapes

Strong 2 yr. vines, post-paid at price each. Prices except Concord, ea. 25c; 10, \$2.25; 100, \$20. Concord, ea., 20c; 10, \$1.75; 100, \$15.

BETA. Very hardy. Small black fruit for jelly and juices.

CONCORD. The widely planted blue-black grape.

DIAMOND. Prolific, greenish-white, sweet juicy. Champagne variety.

MOORES EARLY. Similar to Concord, ripening two weeks earlier escaping early frost.

WORDEN. A slight improvement on Concord; a little earlier. Healthy.

Currants

Strong 2 yr. plants, postpaid at price each.

CHERRY. A good standard, large, clear red variety. Early. Price each, 25c; per 10, \$2.25; per 100, \$20.00.

PERFECTION. The largest berried, most attractive red currant on the market. Price each, 30c; per 10, \$2.75; per 100, \$25.00.

Gooseberries

Strong 2 yr. plants, postpaid at price each.

Price each 25c; per 10, \$2.25; per 100, \$20.00.

CHAMPION. A vigorous, very productive variety; planted extensively for commercial use; easy to pick. Large greenish-yellow when ripe.

JOSSELYN. A popular variety, bearing sweet, reddish-pink berries when ripe.

Raspberries

BLACK CUMBERLAND.

The largest and very best black-cap. Vigorous growth and prolific. Price per dozen, postpaid, 60c; per 100, not postpaid, \$3.50.

CHIEF.

New disease resistant mate for Latham,

ripening 10 days earlier; has the other same fine qualities of Latham. Price per doz., postpaid, 75c; per 100, not postpaid, \$4.00.

LATHAM. The new, most widely planted red raspberry in recent years, displacing old varieties. Prolific, strong mosaic-resistant canes; firm, very large berries. Price per doz., postpaid, 75c; per 100, not postpaid, \$4.00.

MARLBORO. A fine bright red standard variety for years in Colorado. Price per doz., postpaid, 60c; per 100, not postpaid, \$3.50.

ST. REGIS EVERBEARING. Harvest one crop without winter protection, and two crops if canes are covered during winter. Berries fair size, crimson, good flavor. Price per doz., postpaid, 60c; per 100, not postpaid, \$3.50.

Strawberries

Postpaid

MASTADON. ..Best ..in size, color, flavor, and yield of all everbearers.

Price per 25, 75c; per 100, \$1.75.

Garden Roots

ASPARAGUS. Mary Washington, the leading rust-resistant variety. 2 yr. No. 1 plants. Price per dozen, 40c; 100, \$2.00. Postpaid.

HORSERADISH. Price ea., 10c; per doz., \$1.00. Postpaid.

RHUBARB. Victoria, medium size, tender stalks. Price ea., 10c; per doz., \$1.00.

Our "Full of Life" Storage

Our fruit stock is dug in late fall, when fully matured and the leaves have fallen. The trees and plants are then tied in bunches and heeled in trenches until planting time. This method keeps the stock in the very best of condition from the roots to the tips at all times. In fact, our stock is hardly out of the ground until it is packed and sent to the customer.

ORNAMENTALS

**Your
Property**

*With Trees, Shrubs, Vines
Evergreens, Roses, Perennials*

If you are interested in landscaping your home grounds, we shall be pleased to give further information in regard to this service.

We shall also be glad to aid in suggesting varieties for certain uses as far as possible when requested.

Shade and Ornamental Trees

Plant shade trees. Create a sheltered environment for your home that you will be proud of, and decorate it with ornamental trees and shrubs.

The numerals following the name is approximate height at maturity in feet.

BIRCH. Cut Leaved Weeping. 30-40. A very graceful and attractive tree with drooping limbs and cut-leaved foliage; silvery white bark. 5 to 6 ft. ea., \$2.10; 4 to 5 ft., ea. \$1.25.

CRAB. Dolgo. See under fruit, Crab Apples.

CRAB. Bechtels Flowering. 12-15. Bears many rose-like double pink flowers in May. 2 to 3 ft. ea., 75c.

BOXELDER. Ash Leaf Maple. 40-50. A rapid growing tree with light green foliage and spreading head; very hardy and succeeds in many places where 5 to 6 ft., ea. 50c; 6 to 8 ft., ea. 75c.

ELM. Chinese. 40-50. The U. S. Dept. of Agriculture says: "The Chinese Elm is a rapid grower, with slender, almost wiry branches. It is one of the first trees to leaf out in the spring and the last to shed its leaves in the fall. It is remarkably free from plant diseases and insect injuries.

"It is very hardy and has proved valuable under a greater variety of climatic and soil conditions than any tree yet introduced."

This tree is of great value, especially in the West. In addition to its fine qualities of growth, the Chinese Elm is very attractive in appearance. The following trees are very well rooted and correctly shaped.

(For Windbreaks See Page 14)

Prices of CHINESE ELM. AMERICAN ELM,
MOLINE ELM

	Price ea.	per 10
5 to 6 ft.	\$.75	\$ 6.50
6 to 8 ft.	1.00	9.00
8 to 10 ft.	1.25	11.00
1¼ to 1½ inch caliper	1.75	15.00
1½ to 1¾ inch caliper	2.25	20.00

Prices of larger sizes of Chinese Elm up to 4 inch caliper on request.

ELM. American. 60-80. The most popular of all standard ornamental trees in northern U. S. Furnishes immense canopy of foliage. Prices same as Chinese Elm.

MOLINE ELM. 80-100. Fine, shapely, new type of American Elm that many have been looking for; makes a rapid, tall, upright growth. Large leaves. Prices same as Chinese Elm.

HACKBERRY. 50. Habit of growth is very similar to American Elm. Leaves are larger and branches are strong and wiry. Remarkably free from insects and disease. 6 to 8 ft., ea. \$1.50.

HONEYLOCUST. 40-50. A thorny tree with attractive pinnate leaves. Fragrant white flowers in May. Succeeds on most any kind of soil. 5 to 6 ft. ea. 75c; 6 to 8 ft., ea. \$1.00; 8 to 10 ft., ea. \$1.25.

THORNLESS HONEY LOCUST This is a Honey Locust strain that is free from thorns. 6 to 8 ft., ea. \$1.50.

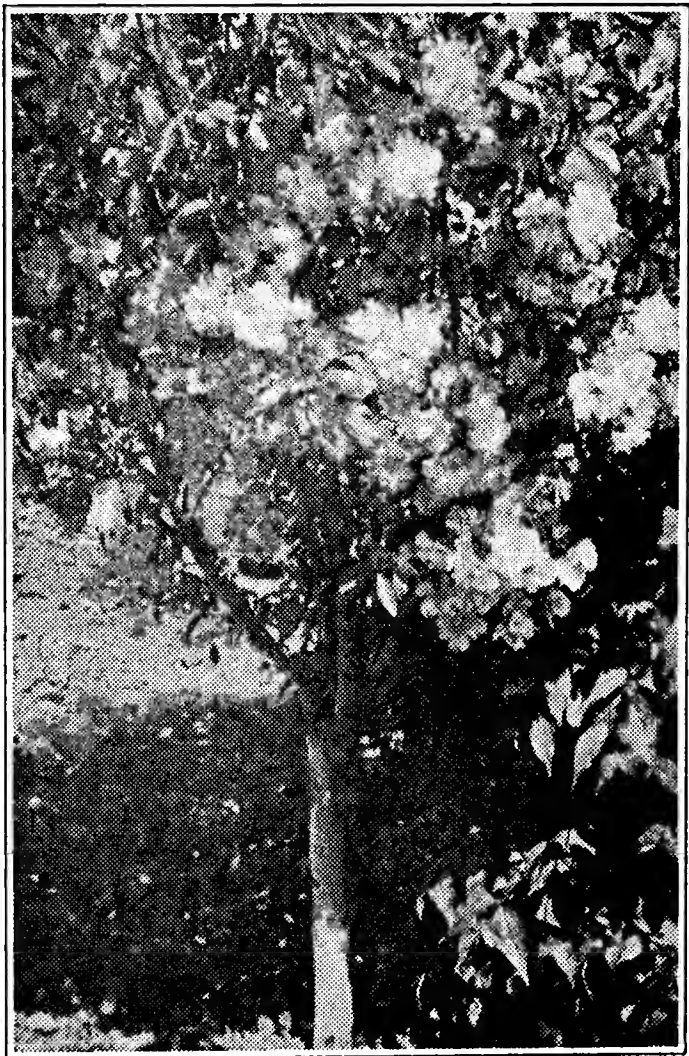

LINDEN. American. 60-80. Fairly rapid growing. Large glossy leaves; tree round to pyramidal in form. Fragrant yellow flowers in June. 6 to 8 ft. ea., \$1.50.

(Shade and Ornamental Trees, Continued)

MAPLE Soft or Silver. 60-80. The well known rapid growing variety; foliage white on under side. 6 to 8 ft., ea. \$1.00.

MAPLE. Skinners Cut Leaved. 50-60. A very attractive form of Silver Maple with dense cut leaved foliage and drooping branches. 6 to 8 ft. ea., \$1.00.

NORWAY MAPLE. 40-50. Handsome tree with broad foliage and compact growth, especially desirable for parking or as specimen. Harder to establish than softer wood trees, but well worth the extra care to make them grow. 5 to 6 ft. ea., \$1.50.

MOUNTAIN ASH. European. 20-30. Has dense regular form, and rich green fern-like foliage; has many clusters of orange-red berries in summer and fall. 5 to 6 ft., ea. \$2.00.

MULBERRY. Tea's Weeping. 7-8. Unlike anything heretofore introduced. Forms perfect umbrella-shaped head with long slender branches drooping to the ground. Also bears sweet black berries; hardy and vigorous. Heads grafted on 5 to 6 ft. stems ea., \$2.00.

POPLAR. Bolleanna. 50-60. One of the most attractive trees of any variety, and unquestionably the outstanding poplar. Tall slender shape resembles Lombardy; foliage is rich deep green, lobed, and silvery underneath. Bark is smooth light green. This is not Silver Poplar. 5 to 6 ft., ea. 75c; 6 to 8 ft., ea. \$1.00; 8 to 10 ft., ea. \$1.40.

POPLAR. Carolina. 60-80. Pyramidal tree of very rapid growth; large luxuriant foliage. 6 to 8 ft. ea., 60c; 8 to 10 ft. ea., 75c; 1½ to 2 in. cal. ea., \$1.50.

SILVER POPLAR. 60-80. A quick grower with grey bark; maple-like foliage is dark green on upper side and white on underside. Makes large friendly tree where others are difficult to start. 5 to 6 ft., ea. 50c; 6 to 8 ft., ea. 75c; 8 to 10 ft., ea. \$1.00.

RUSSIAN OLIVE. 20-25. One of the hardier trees. Fine for hedge, screen, or specimen small tree for contrast. Has narrow silvery foliage and stems; small very fragrant blossoms. 5 to 6 ft. ea., \$1.00; 6 to 8 ft. ea., \$1.25.

WILLOW. Niobe Weeping. 30-35. Has very attractive golden bark, and long pendulous branches; beautiful in summer and of striking appearance in winter. 6 to 8 ft., ea. \$1.00; 8 to 10 ft., ea. \$1.25.

Ornamental Shrubs

The numerals following the name is approximate height at maturity in feet.

ALMOND, Pink Flowering. 5-6. Branches studded with bright pink flowers before the leaves appear. 2 to 3 ft., ea. 90c.

AMORPHA, FRUTICOSA. Indigo Bush. 6-10. Shrub of spreading form, having bright green foliage in locust-like or pinnate arrangement; dark violet-blue flowers in June. 3 to 4 ft., ea. 50c.

BARBERRY, Japanese. 4-5. Hardy shrub for low hedges, foundation, or groups; rich green foliage turning to red in autumn; red berries. Small clumps ea., 20c; medium ea., 35c; large ea., 50c.

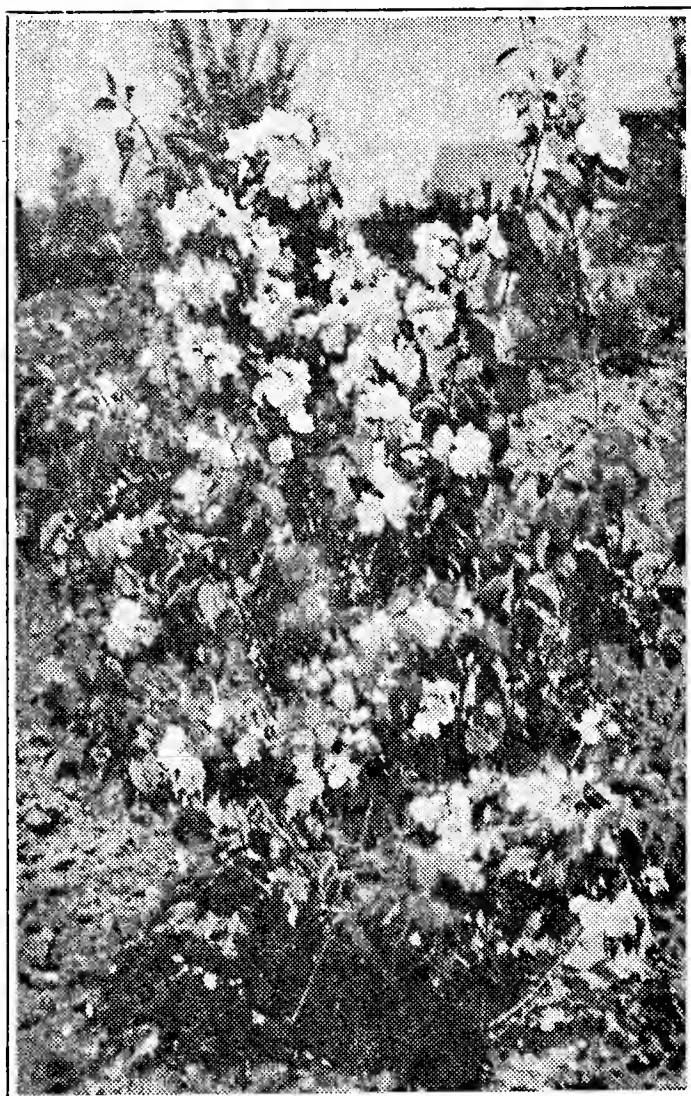

BARBERRY, Red-Leaved. 3-4. Newer form of above, having blood red leaves all summer in sunny location; red berries. Medium clumps, ea. 50c.

BUTTERFLY BUSH, Magnifica. 5-6. Grows from ground each season, producing long clusters of lilac flowers. Strong No. 1 plants, ea. 40c.

☆
**MOCK
ORANGE
VIRGINAL**

See Page 13

☆

ILE DE FRANCE. The New Butterfly Shrub. For a brilliant display of rich color from July to severe frost we know of no shrub to surpass it. Bears 12 inch spikes of deep, rich claret purple flowers on a well rounded bush about 4 ft. in height. Field grown plants will bloom this summer, ea. 65c.

CARAGANA, Siberian Pea Tree. 10-15. Large shrub for specimens, screens or hedges; attractive locust like foliage, green stems, small yellow pea shape flowers, May. 18 to 24 in., ea. 30c; 2 to 3 ft., ea. 40c.

COTONEASTER, Acutifolia. 8-10. Graceful, very hardy; dark green foliage; black berries and brilliant foliage in autumn. 2 to 3 ft., ea., 60c; 18 to 24 in., ea., 45c.

DOGWOOD, Alba Sibirica. 6-8. Bright red-twigged variety; small white flowers in May. Valuable in winter landscape. 2 to 3 ft ea., 50c.

(Ornamental Shrubs, Continued)

DOGWOOD, Goldentwig. 6-8. Bright yellow twigs, contrasting beautifully with the red variety. 2 to 3 ft. ea., 50c.

EUONYMOUS, Elatus. "Winged burning bush." 6-8. Very attractive shrub, foundation or specimen; corky winged branches; red and crimson leaves in fall. 18 to 24 in. ea., 50c.

GINNALA MAPLE. 10-15. A graceful small tree or large shrub. Bright green foliage, is deeply cut. Turns to a brilliant red in autumn. 4 to 5 ft., ea. \$1.00.

FLOWERING CURRANT, Ribes Odoratum. 5-6. A handsome hardy shrub bearing many bright yellow fragrant flowers, April-May. Foliage appears early and assumes beautiful autumn colors. 2 to 3 ft. ea., 50c.

HONEYSUCKLE. Red Tatarian. 8-10. One of the best extra-hardy shrubs. This is the rosy red flowering type, blooming in May-June, followed by bright red berries. Foliage bright green, appearing very early in spring. 2-3 ft. ea., 50c.

HYDRANGEA. A. G. 3-5. Bears very large clusters of snow-white flowers. Thrives in shade or partial shade. Usually starts from ground every spring in this climate. 3 yr. plants ea., 40c.

HYDRANGEA P. G. 4-6. Large lilac-shaped bloom clusters, white turning to pink, bronze in late summer. 3 yr. plants ea., 40c.

LESPEDeza, Desmodium Penduliflorum. 3-4. Canes from the ground each spring forming arched branches with drooping rich purple flowers in late summer. Strong plants, ea., 60c.

LILAC—Syringa

This class of shrubs is of great value for Western planting; they are hardy, drouth resistant, and unexcelled during their blooming season for beauty and fragrance.

Common Purple. 12-15. The popular old time purple May flowering variety. 4 to 5 ft., ea. 75c.

Common White. 12-18. White flowering variety of above. 3 to 4 ft., ea. 75c.

Hungarian, Josikea. 8-10. Blooms in June, escaping late frost; flowers deep violet; dark shiny green foliage. 18 to 24 in., ea. 50c; 2 to 3 ft., ea. 75c.

Japanese Tree Lilac. Japonica. 18-20. Creamy white flowers appear in June-July. Handsome upright grower. 3 to 4 ft. ea., 75c; 18 to 24 in., ea., 50c.

Persian. Persica. 8-10. Flowers little later than Common Lilac; color light lilac; smaller leaves. 2 to 3 ft., ea. 60c.

MOCK ORANGE, Philadelphus Ceronarius. 8-10. A popular well known shrub. White fragrant flowers in May-June. 2 to 3 ft. ea., 50c.

MOCK ORANGE, *Philadelphus Virginal*. .6-8 Medium grower, bearing many beautiful fragrant semi-double flowers over a long season from May on. 2 to 3 ft., ea., 50c; 3 to 4 ft., ea., 75c.

POTENTILLA FRUTICOSA, Shrubby Cinquefoil. 2-3. Dwarf shrub bearing bright yellow flowers throughout the summer; very hardy. For specimens, groups, shade or sun. 12 to 18 in., ea., 40c.

PRIVET. Amoor River. 10-12. Can be used as individual shrubs, and is very extensively used for trimmed hedge; has rich green foliage; small white fragrant flowers.

See Hedge Plants.

PRUNUS CISTENA, Purple Leaf Plum. 5-6. Developed from the Western Sand Cherry into a beautiful shrub or small tree. The new foliage is deep blood red shading to bronze green; small pink flowers, May. Adds variety and color. 2 to 3 ft., ea. 75c; 3 to 4 ft., ea. 90c.

PRUNUS TRILOBA. Flowering Plum. 5-7. A charming shrub of vigorous growth. Very early in spring before its leaves appear, the whole tree is decked in a cloud of very double, light-pink blossoms. Superior to Flowering Almond. 2 to 3 ft. ea. 75c.

PUSSY WILLOW. Blue Stem. A large shrub with blue colored bark. Densely flowered with dainty "pussies" in early spring. The hardiest and most satisfactory variety. 3 to 4 ft., ea. 75c.

SHRUB ROSES. See under other roses.

RUSSIAN OLIVE. 15-20. A good large growing shrub for screen or contrast. Has narrow silvery foliage and stems; older branches golden brown, very small fragrant blossoms. 2 to 3 ft. ea. 50c.

SNOWBALL, Common. 10-12. Forms many balls of pure white flowers in May-June. 2 to 3 ft., ea. 60c.

SNOWBERRY, White. 3-5. Attractive green foliage, pink flowers, June-July. Large white fruit in clusters in Autumn. 18 to 24 in. ea., 35c; 2 to 3 ft. ea., 50c.

SNOWBERRY, Red or Indian Currant. 3-5. Has dark close-set foliage and clusters of red berries massed along drooping branches in winter. 18 to 24 in. ea., 35c; 2 to 3 ft. ea., 50c.

SPIREA

Arguta or Garland. 4-5. One of the earliest shrubs to bloom in the spring; upright, hardy; small light green leaves, covered with single white flowers, April-May. 2 to 3 ft. ea., 50c.

Frobeli. 3-4. Red flower clusters like Anthony Waterer, but more vigorous; red spring and autumn foliage. Clumps ea., 50c.

Billardi. 4-5. Pink plume-like flower clusters on tall erect stems. Likes moisture and partial shade. 3 to 4 ft., ea. 60c.

Van Houtte. 5-6. "Bridal Wreath." One of the best shrubs. A fountain of white flowers in May-June; foliage and form ornamental the year round. Heavy 3 to 4 ft. clumps ea., 75c; heavy 2 to 3 ft. clumps ea., 50c; 2 to 3 ft., ea., 35c; 18 to 24 in., ea. 25c.

KOREAN. 5-6. New hardy spirea blooming a little later than Van Houtte, with flowers larger in size. Presents a picturesque appearance, with large dense white flower clusters arranged in somewhat horizontal formation. Beautiful glossy green foliage. 2 to 3 ft., ea. 60c.

(Ornamental Shrubs, Continued)

SUMAC. Fern Leaf. 10-12. Splendid shredded foliage; red fruit clusters; brilliant autumn foliage. 3 to 4 ft. ea., 75c; 2 to 3 ft. ea., 50c.

SUMAC. Staghorn. 15-20. A large shrub or tree. brilliant foliage and scarlet fruit in autumn. 2 to 3 ft., ea. 50c.

TAMARIX *Hispida*. 12-15. One of the hardiest and best; has feathery silver foliage, bright coral-pink flowers, June-July. In bloom longer than any other variety. 2 to 3 ft., ea. 50c; 3 to 4 ft., ea. 75c.

VIBURNUM. Lantana (Wayfaring Tree). 10-12. Upright growing shrub with heavily veined rich green foliage. Large heads of white flowers in June, followed by bright red fruit. 2 to 3 ft., ea. 60c.

VIBURNUM *Opulus*. Highbush Cranberry. 10-12. Decorative shrub with white flower clusters in May followed by clusters of scarlet berries. 2 to 3 ft. ea. 60c.

Hedge Plants

Varieties are described under shrubs and trees, but are smaller, lighter grades. Although Privet is best adapted to shearing, the other varieties can also be trimmed for compactness, or left as informal hedges.

	per 25	per 100
BARBERRY, Japanese, 12 to 15 in.	\$2.25	\$7.00
CARAGANA.		
Siberian Pea Tree, 12 to 18 in.	2.00	6.00
PRIVET, Amoor River, 12 to 18 in.	2.50	7.50
Amoor River, 18 to 24 in.	3.00	10.00
RUSSIAN OLIVE, 18 to 24 in.	3.00	10.00
SPIREA VAN HOUTTE, 12 to 18 in.	3.75	12.00

CHINESE ELM FOR WINDBREAK

This variety has also established itself as one of the finest windbreak trees for western conditions—rapid growth—dense masses of branches and foliage—drouth resistant. Branches should be left clear to the ground for windbreak use. We offer one of the largest seedling grades, 2 to 3 ft. in height. Prices gladly quoted on larger quantities, or on smaller sizes. Price per 25, \$1.75; per 100, \$5.00.

Also other varieties for screen, hedge, or windbreak.

CLIMBING VINES

Postpaid
Strong Two Year Grades

CLEMATIS. Jackmanni. 10-15. One of the most beautiful vines grown. Open flowers from four to six inches across; rich velvety purple. Blooms profusely from July on. Ea. 90c.

CLEMATIS. Coccinnea. 5-6. Bright scarlet, heavy petaled flower, bell shaped; blooms from July till frost. Perennial. Ea., 50c.

CLEMATIS *PANICULATA*. 15-20. Also called Sweet Autumn Clematis; the rich green foliage is nearly covered by sheets of small fragrant pure white flowers in September. Ea. 50c.

BOSTON IVY. 30-40. Beautiful foliage in spring and summer changing to crimson scarlet in autumn. Clings tight to brick, stone or concrete walls. Best on north side. Ea., 50c.

ENGLMANN IVY. 30-40. Neat hardy, self-climber on brick or stone walls; brilliant autumn colors. Rapid growing and very dependable. Ea., 40c.

GRAPE. Beta. See fruit grapes.

HONEYSUCKLE. Halleanna. 15-20. Rich green foliage remains into winter; bears many creamy white fragrant flowers after July. Ea., 45c.

HONEYSUCKLE, HECKROTTI. The best ever-blooming vine from early summer to killing frost. Showy flowers, bright-red outside; outward curving petals show the bright yellow of the inside; fragrant. Used on trellises, as ground cover, or trimmed as shrub. Strong plants. ea., 75c.

SILVER LACE VINE. Polygonum auberti. 20-25. Rapid grower; fresh green foliage decorated with clouds of foamy white, fragrant flowers from July on. Ea. 75c.

TRUMPET VINE. Bignonia radicans. 20-25. large trumpet-shaped, orange red flowers in summer. Heavy slow grower. Ea., 45c.

Evergreens

Consider the year round ornamental value of evergreens. Even when deciduous trees and shrubs are in leaf, there are characters of evergreens for which other plants cannot be substituted.

The following varieties are of great value in landscape planting, and we have found them perfectly hardy. We can quote on some other hardy varieties not listed here.

COLORADO BLUE SPRUCE... This is the choicest and most beautiful of all evergreens; of symmetrical, pyramidal form; foliage rich and silvery blue. Several times transplanted and developed.

1 to 1½ ft.	each \$2.50
1½ to 2 ft.	each 3.50
2 to 2½ ft.	each 4.50
2½ to 3 ft.	each 5.50
3 to 3½ ft.	each 6.50
3½ to 4 ft.	each 7.50

COLORADO SPRUCE. Green type. This type has the same habits of the good blue type, but is of a greenish color. Often used with blue type for contrast. Prices are 1-3 less than blue type quoted above.

Junipers

SCOPULORUM JUNIPER, or Colorado Silver Juniper. This is the perfectly hardy variety of upright growing juniper; growth narrow and compact; foliage a silvery blue. 1½ to 2 ft., ea. \$2.50; 2 to 3 ft., ea. \$3.50; 3 to 4 ft., ea. \$4.50.

(Evergreens, Continued)

PFITZER'S JUNIPER. A low spreading juniper, one of the best; foliage attractive blue-green. 12 to 15 in. ea., \$2.00; 2 to 2½ ft. spread ea., \$3.75.

SAVIN JUNIPER. Low growing type with numerous upright fan-shaped branches; handsome moss green foliage. 12 to 15 in. spread, ea., \$2.00; 2 to 2½ ft. spread, ea., \$3.75.

Pines

AUSTRIAN PINE. Pyramidal grower with long, slender, deep green needles. Branches from ground upward, making well formed tree. 12 to 18 in. ea., \$1.50. Other available sizes at \$1.25 per ft.

MUGHO PINE. The popular low-growing compact pine that fits in so well in foundation plantings, or in specimens or groups. 12 to 15 in. ea., \$1.75. Other available sizes at \$1.50 per ft.

ROSES

Our list of roses represents a very careful selection in all colors from a great number of varieties. Where good all-around merit is desired plus beautiful flowers, and adaptability, choose from the following varieties. You will find a number of choice new creations of recent years as well as some of the old favorites that cannot be replaced because of their lasting merits.

Everblooming Roses

Price each 55c; 3 for \$1.50; 6 for \$2.75.

2 Yr. No. 1 Field Grown Bushes

(Please Note: There are as many as four grades of roses. Our 2 yr. No. 1 is the best grade you can buy.)

PINK SHADES

BETTY UPRICHARD. Center petals a rich salmon-pink to carmine, outer petals are carmine with coppery shadings suffused orange.

DAME EDITH HELEN. One of the largest and most perfectly formed pink roses known; glowing clear pink color on strong stems.

LOS ANGELES. Beautifully shaped, fragrant flowers of pale salmon-pink, richly shaded with deep rose and gold.

MRS. HENRY BOWLES. Excellent flowers of dark lustrous pink shaded lighter. A recent introduction and a very outstanding pink rose.

RADIANCE, Pink. Hardy, vigorous, and prolific. This is a fine all-round garden rose of brilliant rose-pink.

WHITE SHADES

CALEDONIA. Large double flowers with edges gracefully rolled back. Color, slightly lemon tinted, changing to pure white. Borne singly on long strong stems.

K. A. VICTORIA. A most popular white rose. Bears many large creamy white, perfectly formed flowers; very fragrant.

RED SHADES

AMI QUINARD. A "black" rose that has attracted unusual attention. Color is a striking, very dark crimson maroon. Try it.

E. G. HILL. One of the finest red roses. Long buds, high-centered full double flowers; dazzling scarlet maturing to deeper pure red.

ETOILE DE FRANCE. This thrifty growing variety produces many large dark crimson, double blossoms; very popular.

ETOILE DE HOLLANDE. Many large, velvety crimson flowers produced throughout the summer; richly fragrant. One of the best red Teas for general purposes.

GENERAL MCARTHUR. Very fragrant flowers of pure, clear scarlet.

GRUS AN TEPLITZ. Bright scarlet shading to velvety crimson; fragrant; very free flowering.

MARGARET MCGREDY. For garden show it is truly excellent. Always in bloom, a thrifty, healthy vigorous grower, producing a profusion of blooms of rich oriental scarlet, passing to carmine rose.

OLYMPIAD. Lustrous oriental scarlet, accentuated by golden base, and covered with a velvety sheen that makes its rich coloring particularly effective. Perfumed and long-stemmed. Add 10c per bush.

RED RADIANCE. This is the bright rosy-red form of Pink Radiance.

YELLOW SHADES

GOLDEN EMBLEM. This variety heads the list for a perfectly formed flower; beautiful unfading yellow, opening buds splashed with carmine.

JOANNA HILL. A thriftier, more vigorous Sunburst. Clear yellow blooms deepening at center; very profuse.

SOUVENIR DE CLAUDIUS PERNET. Blossoms are clear sun-flower yellow with long pointed buds. Erect vigorous grower; bright shiny green foliage.

SUNBURST. Rich yellow cupped flowers shaded coppery orange.

VILLA DE PARIS. Unadulterated sunflower yellow rose that holds its color remarkably well. In form, character and growth it favors the famous Radiance type.

(Everblooming Roses, Continued).

TWO-TONE SHADES

AUTUMN. One of the best of the new introductions. Fine medium sized ovoid buds colored burnt orange; open flowers are double, cupped, and colored burnt orange and yellow, streaked with red. Price each 65c, 3 for \$1.75.

DUCHESS OF ATHOLL. A desirable rose of delightful coloring of vivid orange flushed old rose; double and fragrant.

EDITH NELLIE PERKINS. Buds long and pointed, outside of petals cream and blush shaded with orange; inside of petals salmon-pink with golden orange base.

MADAME BUTTERFLY. Light salmon with light yellow shadings, a perfect gem. Foliage leathery, stems strong, a fine variety for cut flowers.

MRS. SAM MCGREDY. A remarkable new rose from the famous House of McGredy. One of the rose world's most beautiful varieties, orange salmon suffused gold. Free-blooming, vigorous. Price each, 75c. 3 for \$2.00.

PRESIDENT HERBERT HOOVER. A gorgeous rose of new color combination. Pointed coppery red buds on rigid stems open into large flowers of dazzling combination of vivid cerise pink, scarlet-orange and gold.

TALISMAN. The very popular outstanding rose novelty. Brilliant orange-red buds open to large high pointed bloom of glowing yellow stained with copper-red and orange-rose on inside of petals.

We can also furnish a list of smaller No. 2 grade roses at the following prices: Price each, 30c; 3 for 80c; 6 for \$1.50.

Varieties include: White shades—**K. A. Victoria**; Pink shades—**Dame Edith Helen, Pink Radiance**; Red shades—**Etoile de France, Etoile de Hollande, Gruss an Teplitz, E. G. Hill**; Two-toned shades—**Los Angeles, Pres. Herbert Hoover, Talisman, Autumn**; Yellow shades—**Joanna Hill, Sunburst**; Climbing rose—**Pauls Scarlet**.

HYBRID PERPETUAL ROSES

This type makes a strong bush and has its main crop of blossoms in June. Price each, 55c; 3 for \$1.50; 6 for \$2.75.

AMERICAN BEAUTY H. P. A good bloomer; flowers very large and full, brilliant pink to red, on long stems; fragrant.

FRAU KARL DRUSCHKI. H. P. Very large fully double, pure white rose. One of the finest pure white roses.

PAUL NEYRON. H. P. Very large, fragrant, clear pink shading to rose; produced by medium sized thrifty plant.

Climbing Roses

DR. VAN FLEET. Well formed long, pointed, deep pink buds on long stems in clusters that open to a lighter shade of pink. Glossy leaves. Price each, 50c.

DOROTHY PERKINS. Beautiful shell-pink flowers are borne in large clusters of small double blooms, very sweet scented. This is the hardiest and thriftiest of standard climbers. Price ea., 40c.

PAULS SCARLET. For brilliant color this rose is unsurpassed. Produces clusters of semi-double, vivid dazzling crimson blooms. Price ea., 50c.

NEW DAWN CLIMBER

Plant Patent No. 1

A real honest to goodness hardy EVER-BLOOMING CLIMBING ROSE, producing a constant succession of beautiful roses all summer. Good sized delicate pink flowers of excellent form are borne on long stems above glossy, dark green, very healthy foliage. Blooms on new wood even though old canes are unprotected and may kill back. Medium height trellis; beautiful for embankments, ground cover, etc. Enjoy this marvelous rose in your own garden. Price each, \$1.50.

Rugosa Roses

A valuable hardy type much used in landscape work as specimens or in groups. As a class Rugosas flower abundantly in June, and recurrently till fall; make medium sized bushes; foliage lustrous dark green.

Price Each 55c; 3 for \$1.50.

AMELIA GRAVEREAUX. Medium double, fragrant flowers in small groups all summer; carmine red flowers on long stems.

F. J. GROOTENDORST. Distinctive small red flowers in clusters, with the edge of each petal serrated. Plant is strong grower and bushy; blooms continually until frost.

DR. EECKENER. The newest notable addition to this class; highly recommended for shrub use. The cup-shaped flowers are of good size, distinct from the others in its delightful color, luminous buff-pink, with golden suffusion.

Shrub Roses

These are the hardy bush roses that should be found in every garden planting. The foliage and fruits are as attractive as the flowers which present a blaze of color in June.

AUSTRIAN COPPER. No shrub attracts more attention when in bloom. Flowers are single, an intense coppery red on the top side while underside is yellow. Price each, 75c; 3 for \$2.10.

PERSIAN YELLOW. Produces a large number of double yellow roses in June. Price each, 55c; 3 for \$1.50.

ROSA RUBRIFOLIA, Red Leaf Rose. 6-8. One of the hardiest shrub roses with purple-red foliage all summer beautifully studded with starry bright pink blossoms in June. Price each, 55c; 3 for \$1.50.

Gladiola

"Superb Mixture"

We are pleased to offer this special group of glads at this low price—large flowering size bulbs. One bulb each of twelve famous and strictly choice varieties to the dozen, or ten of each variety to the hundred. **Price per dozen 40c; per 100 \$3.00.**

Unusual opportunity—"Originator's Mixture"

Seldom can you buy a high grade lot of glad bulbs grown for the purpose of originating new outstanding varieties. Being the result of special crossing of varieties, this mixture contains a number of the much sought blue shades. No end of pleasant surprises as each flower unfolds a different color.

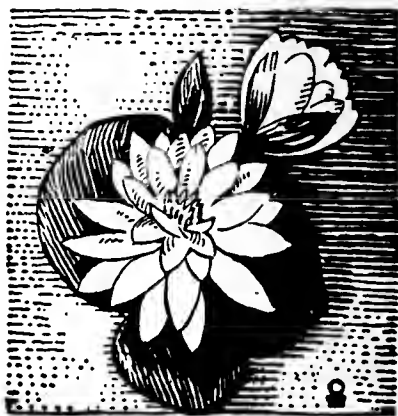

Large bulbs: 40 for \$1.00; 100 for \$2.15 postpaid.

A pleasant place to spend a relaxing hour is in your garden. Seated in the shade of a vine covered arbor, you delight in watching the graceful flow of the goldfish in a pool before you. Beyond, is the restful green turf surrounded by flowers, and the whole is enclosed by shrubbery, and the melody of a bird may crumble your troubles to naught.

Water Lilies and Plants

Postpaid.

The ease with which water lilies are grown requires no previous experience. All that is necessary is sunshine, still water, and rich soil, and not too much shade. Hardy water lilies give an abundance of bloom all summer, opening wide in the morning and closing in the afternoon, and we offer a color range including white, pink, red, and yellow. A water garden can be established in a half-tub.

or a natural, or concrete pool, a foot of manure-richened soil in the bottom, and a foot of water over the lilies. For winter, lilies may be mulched with or without draining in the larger pool, or stored in the cellar, keeping them cool and moist. Plant from April till August.

WHITE

Marliac White. Snowy white flowers with yellow stamens, 5 to 6 inches in diameter. A desirable free flowering variety. Ea. 60c.

PINK

Marliac Pink. A most popular free bloomer. Color is an exquisite pale pink; quite large. Ea. 75c.

YELLOW

Marliac Yellow. (M. Cromatella). Bright sulphur yellow with broad curving petals; produces a constant procession of large blooms; vigorous. Leaves spotted with maroon. Ea. 85c.

SUNSET COLOR

Paul Hariot. Colorful orange-pink, deepening on following days. One of the best all around varieties, sturdy, profuse; has harmonious color. Ea. \$1.50.

RED

James Bryden. Gorgeous vivid rosy crimson blossom, full petalled and broadly cupped; bronzy-red leaves. Very desirable with those familiar with it. Ea. \$2.25.

Water Plants

To complete the pool.

Water Hyacinth. Delicate spikes of lavender flowers as beautiful as an orchid. Floats on water but should be anchored to bloom. 2 for 25c; 5 for 50c.

Water Poppy. Trailing plant producing large yellow poppy flowers. Plant like lilies. Ea., 20c; 3 for 50c.

Floating Heart. Heart shaped leaves and bright yellow flowers size of half-dollar. Plant like lilies. Ea., 20c; 3 for 50c.

Parrot Feather. Feathery green shoots trail over water in soft airy mass. Plant in shallow water. Per bunch, 15c; 4 for 50c.

COLLECTION A: One each of all water lilies and plants listed above (Catalog Value \$6.65) for \$5.30. Postpaid.

COLLECTION B: Marliac Trio, one each, Pink, White, and Yellow; one Parrot Feather and one Water Poppy (Catalog Value \$2.70) for \$2.15. Postpaid.
